WELCOME

On behalf of the William Alanson White Institute, we warmly invite you to participate in a day long exploration of the Unknowable, the Unspeakable and the Unsprung. We have chosen the icon of Medusa for our conference as Medusa represents that which may not be represented. She wanders through territory that belongs to both death and life, male and female, order and chaos, and the visible and the invisible. Medusa is literally and figuratively an ambiguous being. This conference was created with an eye towards speaking about subjects that patients and analysts are often hesitant to address or speak about head on. Like Medusa, we live in a world of ambiguity, beauty, jealousy, trauma and the unbidden. Is it any wonder that we become anxious, tongue-tied, and hesitant to speak? To speak the unspeakable is to risk walking through a door that cannot be closed, to become lost in the timelessness of the unconscious, and like Medusa, to have things emanating from our heads that cannot be controlled. We invite you to join us, and our extensive panel of prominent analysts and invited guests, as we attempt to put words, thoughts, and feelings to the unknown, the unspoken and the unsprung.

The William Alanson White Institute is a psychoanalytic training facility founded in 1943 and incorporated under the New York Education Law in 1946 as a not-for-profit educational corporation. The Institute trains psychiatrists, psychologists, and social workers, as well as selected professionals in other disciplines, in the theory and practice of psychoanalysis and offers courses in essential psychoanalytic concepts to individuals in other disciplines who wish to extend their skills and understanding in their own professions. It also provides clinical services and outreach programs to a wide range of populations in New York City and surrounding communities.

ADAM PHILLIPS

9:00am to 10:15am

STERN AUDITORIUM

PANEL A1—10:30am to 12:20pm—STERN
THE TRAUMATIC FIELD: PSYCHOANALYTIC GROWTH AND THE GROWTH OF PSYCHOANALYSIS
Panelists: Philip M. Bromberg, Ph.D.; Jack Drescher, M.D.; Donnel Stern, Ph.D.; Don Troise, L.C.S.W.
Moderator: Maria Nardone, Ph.D.

From its inception, psychoanalysis was a way of understanding and of treating those whose lives had been marked by significant trauma. More often than not, these traumatized others included the authors of our intellectual tradition themselves. What has been the effect of trauma on the development of psychoanalysis? To what extent does psychoanalysis, as a narrative science, represent a pan-historical intergenerational transfer of trauma? Can we say that the analytic field, as both a dynamic, potential space and as a profession, is born of a traumatic past? Is psychoanalysis, in theory and in practice, a traumatic field?

PANEL B1—10:30am to 12:20pm—GOLDWURM
UTTERS FROM THE GUTTERS: POLITICAL LOYALTIES AND THE CLASH OF DEEPLY HELD VALUES IN THE CONSULTING ROOM
Panelists: Steven Botticelli, Ph.D.; Ken Eisold, Ph.D.; Melissa Ritter, Ph.D.; Steve Tublin, Ph.D.
Moderator: Miri Abramis, Ph.D.

While a great many variants of “Otherness” have been explored in the context of psychoanalytic encounter, one in particular - political identity - has received virtually no attention. What happens if the analyst leans left (as is commonly the case) and the patient leans right? In such instances, are political issues engaged in the consulting room? If so, do the antipathies that may arise create an undertone of disdain that can potentially undermine treatment? Or does the dyad collude to exclude the political realm, thereby protecting the relationship but at uncertain cost? This panel will explore the clash of political identities in the consulting room. Panelists will propose technical stances from which to approach this problem and begin to address the question of whether there are gaps between analytic participants that, in some cases, simply cannot be bridged.

PANEL C1—10:30am to 12:20pm—HATCH
STRANGERS AMONG US: DIVERSIFYING PSYCHOANALYSIS—REASONS AND RESISTANCES
Panelists: Motoni Fong-Hodges, Ph.D.; Helen Fronsh tein, Ph.D.; Nicholas Samstag, Ph.D.; Cleonie White, Ph.D.
Discussants: Anton H. Hart, Ph.D.; Jay S. Kwawer, Ph.D.

This dialogue-oriented panel addresses challenges in the racial and cultural diversification of psychoanalysis. The presenters each identify challenging issues of diversity in contemporary psychoanalytic culture and present ideas on how these issues might be addressed. One presenter considers the need for psychoanalysis to acknowledge its own position as both an elite and embattled, marginalized minority in attempting to understand resistances to diversification. Another describes the utility of psychoanalysts building multicultural competence from within through a group training experience as a contrasting approach to the prevailing emphasis upon “educating the other.” Two presenters draw on race-related personal and clinical experiences in their respective processes of being and becoming racially and culturally aware psychoanalysts. The panel, itself, represents a racially, culturally diverse group, which offers a unique plurality of psychoanalytic voices.

Nicholas Samstag, Ph.D. Supervising Analyst, Faculty Member, W.A. White Institute; Adjunct Associate Professor of Psychology, Graduate School of Arts and Science at NYU.

A self-described "privacy pragmatist" she writes about the intersection of law, technology, social media and our personal information.

Panelists: Todd Essig, Ph.D.; Mary Joan Gerson, Ph.D.; Don Greif, Ph.D.; Kashmir Hill

Moderator: Grant H. Brenner, M.D.

Patients, therapists, and everyone else are in the midst of a privacy explosion whose outcomes no one can yet discern. Privacy is simply being blown to bits: corporations identify private desires by data mining public behavior; a new normal of verbal and visual disclosure has replaced what used to be exhibited exhibitionism; and emerging technologies, such as DNA sequencing and self-monitors, are turning bodies into public documents. This panel will get inside the privacy explosion to ask what people are doing these days with their not-so-private parts. Among our questions will be: What does private communication between intimates mean in a networked culture? Will privacy become an even more cherished experience as it becomes increasingly rare and harder to construct? Are the futures of privacy and psychoanalysis intertwined, and if so, how? As one of the last bastions of traditional privacy, is psychoanalysis headed for extinction? Or will it become an essential source of practical knowledge and personal transformation, even a radical one?

AINT MISBEHAVIN': MUSIC—RESONATING, STIRRING AND ROUSING RECOLLECTIONS
Panelists: Mark Edmundson, Ph.D.; Frank Lachmann, Ph.D.; Robert Langan, Ph.D.; Julie Jaffee Nagel, Ph.D.
Moderator: Seth Aronson, Psy.D.

Music has both charms to soothe the “savage breast” and the power to unleash spiritual and sexual fervor. In particular, the era of rock and roll ushered in technological innovations that allows for the expression of taboo topics: sensuality, social critique and rebellion. This panel explores what it is that compels us to “put another dime in the jukebox, baby!”

Irwin Hirsch, Ph.D. Distinguished Visiting Faculty, W.A. White Institute; Faculty and Supervisor, Manhattan Institute for Psychoanalysis; Adjunct Clinical Professor, Supervisor, NYU Postdoctoral Program. Author of many journal articles and the Goethe Award winning book, Coasting in the Countertransference: Conflicts of Self-Interest between Analysts and Patients (2011).

Motoni Fong Hodges, Ph.D. Psychologist and psychoanalyst in private practice in New York City; Adjunct Assistant Professor of Psychology and Education, Teachers College, Columbia University.

Bernadette Hogan, Ph.D. Faculty, Supervisor of Psychotherapy, W.A. White Institute. She is a psychoanalyst in private practice in New York City.

PANEL D1—10:30am to 12:20pm—NY ACADEMY OF MEDICINE
THE “SCANDALOUS” PATIENT: OUTRAGE, TITILLATION AND COMPASSION
Panelists: Andrea Celenza, Ph.D.; Sue Kolod, Ph.D.; Paul Lippmann, Ph.D.; Abby Stein, Ph.D.
Moderator: Caryn Gorden, Psy.D.
Patients involved in a sex scandal or other “scandalous” activities can evoke reactions of disgust, fascination and sexual arousal in the analyst. They are often transformed from suffering patients into special exotic beings. This panel will discuss the disorientation that can ensue when scandal takes center stage and how the clinician can regain equilibrium.

Lunch Break—12:20 to 1:35pm

PANEL A2—1:35pm to 3:25pm—STERN
BODY TYRANNY: HYPERAWARENESS AND HYPERDEADNESS WITH EATING DISORDERED PATIENTS
Panelists: Susie Orbach, Ph.D.; Jean Petrucelli, Ph.D.; Susan Sands, Ph.D.; Kathryn J. Zerbe, M.D.
Moderator: Elizabeth Halsted, Ph.D.
Mental pain, in psychoanalytic theorizing, has increasingly been understood to be held in the body. New theoretical currents argue that body issues in themselves are causing psychic instability. The body speaks in part through one’s narrative, but it is the felt experience one has within one’s own body and between bodies, that is ultimately the vehicle for discourse. The patient’s hyperawareness of the outside and the deadness on the inside are excruciating and passed back and forth between patient and therapist. Eating disordered patients hold shameful frightening secrets that create psychic terror and physical (body) tyranny. This panel explores the complex dialectical relationship between these patients’ bodily experience and mental anguish.

PANEL B2—1:35pm to 3:25pm—GOLDWURM
STUCK IN THE MIDDLE WITH YOU: ENCOUNTERS WITH THE ANALYST’S SUBJECTIVITY
Panelists: Lori Bohm, Ph.D.; Irwin Hirsch, Ph.D.; Sheldon Itzkowitz, Ph.D.; Sarah Schoen, Ph.D.
Moderator: Jonathan Wormhoudt, Ph.D.
We have arrived in a psychoanalytic era characterized by humility rather than arrogance, questions rather than answers, and the de-centered subjectivity of both patient and analyst. Yet contemporary analysts must still make choices in every treatment and in each clinical hour about how to listen and what to do. In varied ways, this panel will address the confusion or stagnation that arises when clinicians are faced with these choices in the absence of clarity regarding their motives, containment for their disequilibrium, and absolute conviction about their method.

PANEL C2—1:35pm to 3:25pm—HATCH
HAROLD AND THE PURPLE CRAYON: DRAWING MOVABLE BOUNDARIES BETWEEN PUBLIC AND PRIVATE, INNER AND OUTER, THROUGHOUT DEVELOPMENT
Panelists: Jacqueline Ferraro, D.M.H.; Daniel Gensler, Ph.D.; Dodi Goldman, Ph.D.; Pasqual Pantone, Ph.D.
Moderator: Marcelo Rubin, Ph.D.
The variable redrawing of boundaries between self and other, inner and outer, public and private, both imposes limits and offers opportunities. Panel members explore the fluidity of moveable boundaries in psychoanalytic encounters with young people and throughout development.
Nicholas Samstag, Ph.D. Supervising Analyst, Faculty Member, W.A. White Institute; Adjunct Associate Professor of Psychology, Graduate School of Arts and Science at NYU.

Susan Sands, Ph.D. Faculty, Psychoanalytic Institute of Northern California (PINC); Clinical Faculty of the Psychology Department, UC-Berkeley; and is in private practice in Berkeley. She has treated individuals with eating disorders for more than 25 years, including five years in the Eating Disorders Clinic, Psychiatry Department, Stanford Medical School. She has published, taught, consulted, and presented widely on the subject, as well as on dissociation, unconscious communication, female development and aging.

Sarah Schoen, Ph.D. Steering Committee Member, Faculty, W.A. White Institute’s Eating Disorders, Compulsions and Addictions Program (EDCAS), Supervisor of Psychotherapy, W.A. White Institute; and a former fellow of the American Psychoanalytic Association. She is in private practice in the Flatiron District.

Donnel Stern, Ph.D. Fellow, Training & Supervising Analyst, Faculty, W.A. White Institute; Adjunct Clinical Professor, Supervisor, NYU Postdoctoral Program. Author of Unformulated Experience (Analytic Press, 2003) and Partners in Thought (2009): Founder and Editor, Psychoanalysis in a New Key book series; Editor Emeritus, Contemporary Psychoanalysis; Member of the Board of Directors of the International Association of Relational Psychoanalysis and Psychotherapy; Associate Editor, Psychoanalytic Dialogues and serves on the Editorial Boards of Psychoanalytic Inquiry, Psychoanalytic Psychology, and The Journal of the American Psychoanalytic Association.

Janet Tintner, Psy.D. Graduate, Faculty, Supervisor of Psychotherapy, W.A. White Institute; and member of the Eating Disorders, Compulsions & Addictions Steering Committee, Faculty, Supervisor, W.A. White Institute. She is in private practice, and specializes in the treatment of patients and families dealing with obesity.

Don Troise, L.C.S.W. Training & Supervising Analyst, Faculty Member, Institute for Contemporary Psychotherapy. He is in private practice in New York City.

Steven Tublin, Ph.D. Training & Supervising Analyst, W.A. White Institute; Adjunct Clinical Professor, NYU Postdoctoral Program; and serves on the Editorial Board of Contemporary Psychoanalysis. He is an Associate at Upstart Logic, an organizational consultancy and in private practice in Tribeca.

Cleonie White, Ph.D. Faculty, Supervisor of Psychotherapy, W.A. White Institute and at the Stephen Mitchell Center for Relational Studies. She sits on the Editorial Board of Contemporary Psychoanalysis, and is an Associate Board member at Psychoanalytic Dialogues. Her interests are in the areas of trauma, dissociation, the stranger/foreigner, the socially constructed Other and she maintains a private practice in NYC.
Warren Wilner, Ph.D. Training & Supervising Analyst, Faculty, W.A. White Institute; Adjunct Clinical Professor, Supervisor, NYU Postdoctoral Program. Author of over 20 papers, many dealing with the experiential dimension of the analytic process, he is in private practice in New York City.

Jonathan Wormhoudt, Ph.D. Graduate of the W.A. White Institute. He is in full-time private practice in NYC and participates on a number of the White Institute’s committees and is active in the American Psychological Association’s Division 39’s Professional Issues Committee. In addition to treating and supervising a varied population in his practice, he specializes in the treatment of gay men and substance abuse disorders.

Kathryn Zerbe, M.D. Training & Supervising Analyst, Oregon Psychoanalytic Center; Clinical Professor of Psychiatry, Oregon Health and Science University. Author of over 60 clinical papers and 4 books, including The Body Betrayed: Women, Eating Disorders, and Treatment (1995) and Integrated Treatment of Eating Disorders: Beyond the Body Betrayed (2008). In 2011 she won the Lifetime Achievement Award from the National Eating Disorders Association. She is in full time private practice.

WELCOME

On behalf of the William Alanson White Institute, we warmly invite you to participate in a day long exploration of the Unknowable, the Unspeakable and the Unsprung. We have chosen the icon of Medusa for our conference as Medusa represents that which may not be represented. She wanders through territory that belongs to both death and life, male and female, order and chaos, and the visible and the invisible. Medusa is literally and figuratively an ambiguous being. This conference was created with an eye towards speaking about subjects that patients and analysts are often hesitant to address or speak about head on. Like Medusa, we live in a world of ambiguity, beauty, jealousy, trauma and the unbidden. Is it any wonder that we become anxious, tongue-tied, and hesitant to speak? To speak the unspeakable is to risk walking through a door that cannot be closed, to become lost in the timelessness of the unconscious, and like Medusa, to have things emanating from our heads that cannot be controlled. We invite you to join us, and our extensive panel of prominent analysts and invited guests, as we attempt to put words, thoughts, and feelings to the unknown, the unspoken and the unprung.

The William Alanson White Institute is a psychoanalytic training facility founded in 1943 and incorporated under the New York Education Law in 1946 as a not-for-profit educational corporation. The Institute trains psychiatrists, psychologists, and social workers, as well as selected professionals in other disciplines, in the theory and practice of psychoanalysis and offers courses in essential psychoanalytic concepts to individuals in other disciplines who wish to extend their skills and understanding in their own professions. It also provides clinical services and outreach programs to a wide range of populations in New York City and surrounding communities.
